

JOB INTERVIEW QUESTIONS & ANSWERS HINTS

TELL US ABOUT YOURSELF/INTRODUCE YOURSELF?

Hint: Use the CAR method to structure your story in order to give evidence of why you are interested and why you are the right person for the opportunity. This question can be tricky but employers ask it because they want to know more about you apart from what you have already shared on your CV.

WHAT IS YOUR SALARY EXPECTATION?

Hint: Share a realistic expectation based on the research you have done about the role and the amount that you need to make to cover your monthly expenses. Be open to negotiations.

WHY ARE YOU INTERESTED IN WORKING WITH US?/ WHAT EXCITES YOU ABOUT THE ROLE ?

Hint: Tell a story and communicate in a concise way how you are a good candidate to hire using specifics you've learned about the job. Use an example and talk about some of your accomplishments and indicate your enthusiasm for working with the specific organization and role.

DO YOU HAVE ANY QUESTIONS FOR US?

Hint: Only ask genuine questions, not simply for the sake of asking. You can ask about something specific about the role/organization that wasn't clear to you, or something about the company in the news, etc.

Some good questions may include:

- What are the next steps in the interview process?
- When should I expect feedback on this interview?
- What do you enjoy most about working here?
